**SPECIFICATIONS**

**QFAM**

**FRESH AIR SUPPLY FAN**

- **Blower Wheel**
  Balanced polymeric dual inlet blower wheel secured in place using a hex nut.

- **Adjustable Capacity Motor**
  9 capacity settings allow the fan to be set to the required intake. Set points include: 40 50 60 70 80 90 100 110 120 CFM
  4 Pole motor, permanently lubricated, thermally protected 115/120V 60 Hz., 0.30 amps.

- **Controller**
  Unit mounted controller monitors temperature and humidity of incoming air and allows installer to configure optimal ventilation.

- **Fan Housing**
  Insulated 26 gauge baked epoxy housing. Overall dimensions: 14 3/8"H x 11 1/2"D x 10 1/8"W.

- **Duct Collars**
  6" round, zinc plated metal collar adapters.

- **Electrical Connections**
  0.5" electrical access. Easy wiring access via external wiring compartment cover or internal access plate.

- **Unit Mounting**
  Designed to surface mount to a wall or ceiling with the included mounting brackets. Can be mounted onto joists, studs or the housing mounting brackets can be adapted for overhead mounting (hardware not provided).

- **Single Pack Shipping Info**
  Box Dim: 23" x 15 7/8" x 12 3/4"
  Shipping Weight: 18.0 lbs.

- **Optional Air Filter**
  An optional 10" x 10" x 2" air filter can be added to the unit (not included).

- **Test Port**
  Allows easy air flow measurement with Pitot tube or similar device.

The sound ratings shown are loudness values in spherical sones at a distance of 1.5 m (5 ft) in a hemispherical free field calculated per AMCA Standard 301. Values shown are for Installation Type D: ducted outlet spherical sone levels. Ratings do not include the effect of duct end correction.

The HVI certified ratings program does not provide for sound ratings of inline fans, so these values are not HVI certified.

AMCA does have a program for testing and rating sound for inline fans but Air King is not an AMCA member so these values are not AMCA licensed. The testing was performed at the AMCA laboratory in Arlington Heights, IL. The outlet duct length was 18" (3 duct diameters) of galvanized steel duct with no acoustic insulation with a bell mouth termination fitting.
